Habitat Happenings

October 2015

Homebuyer Found

Thanks to the generosity of a local family we received a vacant lot on Spring St. After many months of searching we have found a suitable family to partner with Habitat on this new home. The mother's name is Jennifer Driggers and she has 2 small children named Jacklyn and Danielle. Jennifer is currently living in her parents basement. The new home will have 3 bedrooms and 2 bathrooms on an insulated crawl space totaling 1144 square feet and will be extremely energy efficient. We welcome Jennifer and her family to our Habitat family. We hope to break ground and start construction before the end of the year. As part of her contract with Habitat, Jennifer must contribute 250 hours of sweat equity helping to build either her home or another Habitat project.

Donate your vehicle to help build homes.

- Dow Chemical
- Schneider Electric Supply
- Treescapes -lot clearing
- Bazzle Hauling
- Garrett Roofing

For donations and discounts on building supplies and/ or services for building our last home

Jennifer and girls

Jennifer's home will be similar

Funding Needed

Building homes takes money and we are in need of funds to begin this project for the Driggers family.

Please consider making a donation to Habitat of Culpeper to help us complete this project and give the gift of a warm, decent, affordable home to this wonderful family. Please mail your gift in the enclosed envelope, or donations can be made thru our website (www.culpeperhabitat.org) using the PayPal link. All donations are tax deductible and will be used to build homes in Culpeper County. We have no paid staff and have very little overhead cost. Habitat is all about community and we depend solely on donations to accomplish our work of building and repairing homes in Culpeper Town and County. Please consider partnering with us to accomplish this work.

Ground breaking Coming Soon
Habitat Yard Sale Coming soon

Unfortunately, Building Costs Money :(

We hate to talk about it, but it is the reality of any non profit organization. With our previous home builds we were very fortunate for the generosity of various local building suppliers and contractors who donated material and services at no cost. However the building industry has been severely hit by the recession we just came through, making donations of building supplies and contract services practically non-existent. We appreciate any amount of donations you wish to make from small to large...or donations of goods and services. It all helps in completing this project. No donation will go un-recognized by us. All donations will be used 100% toward building Jennifer's home.

Bucket of Nails (Up to \$100)-As it takes many nails to build a home. It also takes many people and dollars. Just as every nail is important, we appreciate every donation. **Recognition:**-We will publish your name on the program at the house dedication.

Build the Walls (Up to \$250)- Next is the lumber and sheathing. As these items cost a bit more, they begin to form the home. **Recognition:** -All as above and we will publicly Thank You in the newspaper once the project is completed.

Doors and Windows (Up to \$1000)-These donations are used to purchase big ticket items such as doors, windows, vanities, bathroom fixtures and such. **Recognition:** All as above and we will formally recognize you at the house dedication.

Raise the Roof (Beyond \$1000)-These donations are needed for the very large ticket items such as roof trusses, HVAC system, Tap Fees, appliances and so forth. **Recognition:** All as above and we will present you with a plaque at the dedication thanking you.

All donations are tax deductible as we are a recognized 501c3 organization. A letter will be issued by us for your tax purposes. Please feel free to contact us if you have any questions.

Thank You

A special thanks to:

- ⇒ Design Options
- ⇒ Luck Stone
- ⇒ TKC Heating and air conditioning

Want to get involved?

Please go to our web page and fill out the volunteer interest form and let us know how you would like to help. We will add you to our database and email list and keep you informed of opportunities. There are many construction and non construction jobs to do in building this home with volunteers.

We can also schedule group workdays for Church, business, or other organizations...Great for team building!!!! And free :) ...
